

BIO

KidsTshirtStore was created by Lorraine Borchers, a grandmother who remembered how much her own children loved their "My Dad Drives a Model A" t-shirts when they were young. She couldn't find similar kids' t-shirts for her grandchildren with pilot/flying, golf, fishing or car themes and decided to make them herself. Knowing that others were probably searching for special kids t-shirts, too, she thought it would be helpful to make them available to others after retiring from an administration and management career.

The company sells kids' t-shirts on-line and at aviation fly-ins and car swap meets. KidsTshirtStore also works with groups or clubs to create club t-shirts and to commemorate special events.
