New Shirts Available For Pilots' Grandchildren and Children

Introductory sales of the kids' airplane t-shirts made by KidsTshirtStore.com happened at the Northwest Antique Airplane Club August 18-21, 2006 Fly-In at McMinnville, Oregon. The kids' airplane t-shirts generated smiles and friendly comments by viewers, and sales confirmed that the special t-shirts were a great way to share the excitement and joy of flying with a special child.

KidsTshirtStore.com is about sharing the joy of your favorite activity with the children in your life. The KidsTshirtStore.com was started during spring 2006 by private pilot, Lorraine Borchers. "When I first became a grandmother, I wanted a t-shirt that combined the excitement of being a grandma and a pilot for our first grandchild. I was unable to find just the right airplane shirt for my granddaughter. I decided to offer a line of kids' t-shirts when I retired if there were still none available. Six years later, I had not found a kids' t-shirt that had a simple, fun design with the grandma and flying theme. A child's drawing of an airplane was developed into the first KidsTshirtStore product and the business was launched in August 2006."

Shirts carry the saying "My Grandpa is a Pilot" and the image of an airplane. The 100% cotton children's t-shirts also are available with Grandma, Dad and Mom pilot sayings in pink, blue and white, with sizes for children 12 months to 14 years old. Designs for the kids' golfing t-shirts, fishing t-shirts, and car t-shirts are in development, and custom shirts are available for clubs and special events.
